Denver, Colorado

Data professional with a strong foundation in data engineering and analytics. Expertise in SQL, Python, and data visualization tools to drive strategic decisions. Experienced in leading data quality initiatives and collaborating across teams to optimize data pipelines and data governance solutions.

Technical Skills:

- **Programming:** SQL, Python, R, JavaScript
- **Big Data Technologies:** Data Mining, Data Analytics, Data Visualization, Data Observability/Quality
- **Cloud Platforms:** Azure, AWS, Google Cloud Platform (GCP), Snowflake
- **Data Visualization:** Tableau, Power BI, Looker, D3.js
- **Version Control:** GitHub, GitLab
- **Collaboration:** JIRA, Confluence, Data Cataloging (Alation & Unity Catalog)

Work Experience:

Inspirato

Lead Data Analyst, Data Platform | May 2023 – Present

- Profile and document data sources (Python & SQL), ensuring seamless integration into engineering pipelines.
- Lead efforts to design and implement data quality framework, improving data accuracy and reliability.
- Collaborate with cross-functional teams to optimize data pipelines and enhance data processing efficiency.

Senior Data Analyst, Data Platform | October 2022 – May 2023

- Conducted comprehensive data analysis and quality assessments to support engineering needs.
- Implemented data transformation procedures to enhance data usability for downstream processes.
- Provided technical support to cross-departmental analysts for data exploration and insights.

Merkle

Lead Analyst, Advanced Analytics | October 2021 – October 2022

- Developed experiments to optimize marketing campaigns, leveraging engineering insights.
- Mentored junior analysts in data model development and data visualization techniques.
- Transformed and prepared complex data sets for analysis, enabling data-driven decision-making.

Charter Communications

Data Analyst III, Content Strategy & Analytics - Contract | July 2021 – October 2021

- Developed data cleaning and transformation scripts using Python and SQL, resulting in improved data accuracy.

MarkeTeam, LLC

Data Analyst | January 2019 – July 2021

- Automated Power BI dashboard and dataset refreshes using Python, enhancing data accessibility.
- Developed internal analytical tools with statistical methods to optimize modeling processes.
- Built ETL infrastructure to streamline data flows, significantly reducing manual effort.

Pacesetter Steel Service, Inc.

Account Manager | February 2018 – Sep 2018

- Conducted in-depth financial analysis, with SQL, of a \$2B client, enhancing decision-making with data-driven insights.
- Leveraged Tableau to create visual reports for inventory forecasting, ensuring timely material procurement.
- Employed linear regression models to optimize inventory levels, aligning them with client and customer demand.

Business Planning Analyst | August 2017 – Jan 2018

- Utilized SQL to extract data and perform advanced analytics for inventory planning and usage trends.
- Presented data insights to leadership and sales teams, facilitating data-driven decision-making.
- Demonstrated proficiency in Tableau to visualize and communicate inventory trends, improving forecasting compliance.

Education:

- **Master of Science in Analytics, Georgia Institute of Technology** | August 2022 – Present
- **Bachelor of Science in Biology, Kennesaw State University** | August 2013 – May 2017
